CHARACTER BACKSTORY

Kosmos is a powerful mafia leader, they recruit people into their mafia so, that the people can have a full time job to gain money and a reputation. At some point during the mafia's lifetime, Kosmos thought of making a pyramid scheme out of the mushrooms they were growing and that way they could recruit even more people into their mafia. They would tell people to pay 12 gold for the supplies and the mushrooms and that people can grow the mushrooms and sell the mushrooms. They would tell people that they could also tell others they can pay 12 gold for supplies and mushrooms. The loop of recruiting and selling gained Kosmos a lot of followers and it caused their mushroom pyramid scheme to be pretty successful.

They gained a massive following before they even turned 16 and then, they fell ill causing them to lose most of their memories except for that they are in a mafia made to give people a way to have more money, power and mushrooms, they forgot they are the leader of the mafia and mushroom scheme.

People started to forget their own leader as well but everyone knew they are out there somewhere. People knew you had to pay 12 gold to get into the scheme as that was the leader's favorite number. Followers who had mushrooms even started to separate from the mafia and make it into their own business involving other mushroom species but they kept their leader's image alive by having a rabbit design in their logo.

The reason why Kosmos fell ill and forgot that they were the leader was because one day, another mafia leader approached them with a business deal of combining Kosmos' shrooms with their pixie dust. Kosmos agreed with this business deal and that they would combine it with their shroom pyramid scheme with the other mafia leader getting half the profits. One day, the 2 leaders decided to take the shroom, pixie dust combination in a field, the other leader had a nice high and went home leaving Kosmos in the field. Kosmos wakes up the next day feeling ill, they attempted to go home but fell asleep. Once they woke up, they forgot that they were the leader but they knew they were in some kind of mafia running a mushroom pyramid scheme.
